Sustainability Strategy

Project

- Conduct a materiality assessment and benchmarking, and develop a sustainability strategy and implementation plan.

Objectives

- The customer, a brand in the outdoor sector, was looking to develop a comprehensive sustainability strategy for all sustainability aspects covering the entire value chain.
- The “Sustainability Strategy” project covered three phases: Explore the needs - Materiality assessment - Sustainability strategy development

Achievements

- The overall generic business case to develop a sustainability strategy was developed and successfully accepted by management.

Supply chain management - ASICS

6

Project

- The project covers all environmental, and health and safety (EH&S) aspects as they relate to ASICS' supply chain.

Objectives

- Supply chain materiality assessment for all of ASICS' different product groups, including T1 and T2 and materials.
- Guideline for the ASICS team and its suppliers.
- Audit tool and training.

Achievements

- Materiality assessment, an EH&S guideline document, an audit approach and checklist, as well as a training were developed

„ASICS values the partnership with Leadership & Sustainability, which is led by Karin Ekberg. Karin is a sustainability expert with a wealth of knowledge about supply chain strategies as well as hands-on supply chain work. The collaboration is a great approach to gain value from the fruitful knowledge and experience from an industry expert. We thank Karin Ekberg for her expertise to support ASICS with an efficiency dimension and to make the programme approaching where we should be in 2017.“

Strategy Workshop - Oberalp Group, Brand SALEWA

7

Project

- Develop and hold a sustainability strategy workshop for a team of general managers, sustainability experts and designers.

Objectives

- Understanding of different flagship projects.
- Understanding of the opportunities for SALEWA.
- Strategic framework for sustainability.
- List of ideas for strategic goals and projects.

Achievements

- Brainstorming materiality assessment and possible goals.
- Strategic value chain approach and good practice examples.

“Through her valuable high-level experience and particularly in the international sports and textile industry, Karin provided very valuable input from the beginning to the end of the project. She has the ability to bring clarity in complex issues and transform challenges into workable solutions. As a great listener, she really tries to go to the bottom of problems and provided creative, relevant and professional ideas and results. I wholeheartedly recommend her for your strategy development and high-level workshops.”
