Free Webinars

Webinar 1: Supply Chain Mapping and Traceability

Webinar: Supply Chain Mapping and Traceability

Duration: 1 hour

Date: November 23rd

Time: 4:00 pm – 5:00 pm CET

Trainer: Karin Ekberg

Cost: Free

Registration deadline: November 20th

Description:

Traceability schemes have become an important part of the sustainability landscape, and can ease social and environmental lack of proof conflicts. They also have the potential to increase the value of your business by assuring the credibility of your brand and the truthfulness of your sustainability claims. To ensure traceability along the supply chain (or rather supply network), it is necessary to develop systems that record and follow the trail of products. This webinar helps you to understand the essential steps of how to develop your own traceability scheme. Please register [here](#).

Agenda

1. Introduction
2. Supply chain mapping
3. Business case for traceability
4. Questions and discussion
5. End of webinar

Presentation

After the webinar, the presentation deck and recording will be made available to all registered persons.

Webinar 2: Climate Change

Webinar: Climate Change and Science-Based Targets (SBT)

Date: November 26th

Time: 4:00 pm – 5:00 pm CET

Duration: 1 hour

Trainers: Karin Ekberg and Laura Brügger

Cost: Free

Registration deadline: November 23rd

Description:

In an era characterized by change and adaptation, textile companies are also being called upon to assume responsibility regarding Climate Change. In this webinar, we will present and discuss various initiatives that can support you in your endeavor to implement lasting changes in your business approach to Climate Change. Please register [here](#).

Agenda

1. Introduction
2. Standards and initiatives
3. What is a Science-Based Target (SBT)?
4. What are the steps to define an SBT?
5. How do I reach my targets?
6. Questions and discussion
7. End of webinar

Presentation

After the webinar, the presentation deck and recording will be made available to all registered persons.

- **Hint:** To register, you need to log in with your trainee account first. You can create your account [here](#).

Description:

The course entitled '*Chemical Management in the Textile Industry*' is a program designed to improve your understanding of chemical management. This course is aimed at factory managers and personnel responsible for dyeing, printing, purchasing chemicals, ETP, EHS, quality assurance and sustainability working at wet processing facilities (such as dyehouses, printing operators, laundries and tanneries), or those working in the textile and footwear industry in a similar capacity.

Agenda – Session 1

1. Introduction
2. ZDHC mission and vision
3. Training scope and audience
4. Introduction to chemical management
5. Chemical management team
6. Chemical management: good practices
7. Hazards and risk assessment
8. Risk control hierarchy
9. ZDHC MRSL
10. Chemical risks communication
11. Wastewater treatment and monitoring
12. Questions and discussion

Agenda – Session 2

1. Recap of Session 1
2. Chemical management team roles and responsibilities
3. Chemical management: purchasing chemicals
4. Hazards and risk assessment
5. SDS, GHS and labelling
6. Chemical risks communication
7. Chemical management training
8. Safe use of chemicals
9. Questions and discussion

Agenda – Session 3

1. Recap of Sessions 1 & 2
2. Safe use of chemicals
3. Transfer and storage
4. PPE and emergency response
5. Wastewater treatment and monitoring
6. Questions and discussion
7. Close and feedback survey (electronic survey)

Presentation

After each webinar, the presentation deck will be made available to all participants.

Webinar 4: Sustainability Strategy

Webinar: Sustainability Strategy

Duration: 2 hours

Date: November 25th

Time: 3:00 pm – 5:00 pm CET

Trainers: Karin Ekberg and Laura Brüggem

Cost: 150€/ 180US\$ per participant incl. L&S certificate (please view further details at the end of this document)

Registration deadline: November 22nd

Description:

Sustainability programs are at their best when they are well integrated into the backbone – the processes – of a corporation or organization. But how can you develop a Sustainability Strategy that can be integrated into the core of your business? With the help of this Sustainability Strategy webinar, we will look in-depth at a value chain approach to sustainability. On this journey, the process of developing a strategic framework and measurable long-term goals and actions will be discussed. Please follow [this link](#) to book this webinar.

Agenda

1. Introduction
2. Why develop a Sustainability Strategy and how to create buy-in
3. Examples of strategic approaches
4. How to develop "your" business case
5. Implementation plan
6. Questions and discussion
7. End of webinar

Presentation

After each webinar, the presentation deck will be made available to all participants.

Webinar 5: Deep-dive into SLCP

Webinar: Deep-dive into SLCP

Duration: 2 x 3 hours

Date: November 25th and 26th

Time: 9:00 am – 12:00 pm CET

Trainer: Karin Ekberg

Cost: 100€/ 120US\$ per participant incl. L&S certificate (please view further details at the end of this document)

Registration deadline: November 22nd

Description:

Over the past two decades, compliance-focused social and labor assessments have played an essential role in improving social and labor conditions in the global apparel and footwear supply chains. However, this has also led to a proliferation of different standards, codes and protocols, resulting in numerous and frequent audits of facilities. Due to an increasing audit fatigue, the Social & Labor Convergence Program (SLCP) has developed an assessment framework that brings together unique perspectives and promotes collaboration. As an accredited SLCP verifier and trainer body, we would like to offer you a deep-dive into the scalable and sustainable tool for social audits. Please follow [this link](#) to book this webinar.

Agenda

1. Introduction
2. Introduction to SLCP
3. The SLCP assessment process
4. The data collection tool
5. The SLCP IT system
6. The SLCP verification
7. SLCP gateway
8. Questions and discussion
9. End of webinar

Presentation

After each webinar, the presentation deck will be made available to all participants. The recording for this webinar will also be made available.

Webinar 6: Higg FEM Training Basic

Webinar: Higg FEM Training Basic

Duration: 2 x 3 hours

Dates: December 7th and 8th
